During the past two years loans have been made to eighty different students. The University derives no income from the fund. It was established by the Rev. Charles F. Deems, D. D., LL. D., as a memorial to his son, Lieut. Theodore Disosway Deems, and was greatly augmented by the munificence of Mr. William H. Vanderbilt. The fund is loaned, both principal and interest, to students in the University, on note with security, at six per cent. As fast as payments are made new loans are made, thus continually adding to the principal fund.

Respectfully submitted,

W. T. PATTERSON,

Bursar.
